## Our Best Choice By Far ...

Buying a new roof is a big decision! Before deciding to have our tile roof of 30 years removed and converted to a composition roof, we considered four different companies. Pacific Roofing was our best choice by far!

Pacific Roofing was the ONLY company who took the time to explain the complete process and help us understand our options for durability, look, energy savings and efficiency.

The whole Pacific Roofing Team, from owner Jerry Lankford to the guys who did the work, were fantastic!

Pacific Roofing was competitive in price, honest and above all, they stand behind their work. We highly recommend Pacific Roofing!

Thanks for a great job!

# Why Choose Pacific Roofing?

## Experience.

Our contractor's license begins with the number 1 and it reflects the 53 years we've been installing quality, long lasting roofs.

Since 1959, we've installed thousands of roofs on homes and commercial buildings, providing years of comfort, style and quality.

## Knowledge.

From roofing materials and energy-saving venting products to installation methods and practices, the roofing industry continues to advance.

You can count on Pacific Roofing to provide you with the latest knowledge to give you the very best roofing experience.

## Integrity.

Our word truly is our bond, and our customers will tell you we indeed do what we say.

We're fully licensed and insured (we even give you a copy of our Insurance Certificate) to protect you and one of your most important investments ... your home or business.

## Looking To Save Energy?

Everyone is looking to save energy, and what better place than in your attic! As a licensed insulation contractor (C2 License), we can restore the R-Value of your attic's insulation to its original value by installing new Owens Corning insulation. With rebates available, the cost will pay for itself immediately in most cases. Be sure to ask about our insulation specials when you inquire about having Pacific Roofing install your new roof.
